

PRO FLEX LIFTER

by SCHUMACHER.

Product Information

Compared to other bean lifters, the ProFlex Lifter is significantly more powerful and has greater durability. This also reduces mowing finger breakage. Simple adjustment and assembly reduce unnecessary setup times. Thanks to its white color, the bean lifter is easy to spot in the field. The Schumacher bean lifter combines simple design with a long service life, enabling fast and safe bean harvesting.

A secure hold on all mowing fingers is guaranteed. The length and angle of the profile are fully adjustable to ensure optimal working conditions. The white color and high-quality material offer excellent visibility and a long service life. The ProFlex Lifter fits Schumacher mowing fingers as well as most forged fingers.

Simple and quick installation

5 good reasons

PRO FLEX LIFTER
by SCHUMACHER.

Perfect Harvest.
