

MultiCarrier MC190

A cooperation of

The universal carrier system

for the SCH shears KM-L (up to 1,65 m),  
KM-S (up to 1,80 m), KM-X (1,70 m)

- Tool-free width adjustment up to 1.93 m
- D-Lock system for versatile vehicle connection
- Collision protection as standard
- Practical angle indicator
- Protected hose guide
- Balancing weights
- Bracket for parking supports and knife guard

# Perfect Cut.

Width adjustment attachment

Düvelsdorf D-Lock system

Landscape, hedge and tree care

# Branch cutter and hedge trimmer

## KM-L Hedge trimmer

## KM-S Hedge trimmer

## KM-X Branch cutter

### Lightweight construction

Maintenance pruning of hedges  
Working width up to 1.65 m

- Branches and twigs up to Ø 2 cm
- Optimum material flow thanks to compact design
- Clean cut thanks to ProCut section
- Extra short guards with rounded tips prevent branches and leaves from being impaled
- Suitable for damp conditions
- For small carrier vehicles
- Positioning C-Drive centrally or laterally
- Working widths: 1.20 m - 1.35 m - 1.50 m - 1.65 m

### High stability

Clear cutting of paths, slope cleaning  
Working width up to 3.00 m

- Branches up to Ø 3 cm
- Demanding applications with large working widths
- Clean cut thanks to ProCut section
- Guards with ball tips prevent impaling of branches and leaves
- High, loss-free power transmission thanks to planetary drive in combination with hydraulic motor
- For medium-heavy carrier vehicles
- ProDrive positioned centrally or laterally
- Working widths: 1.20 m - 1.50 m - 1.80 m - 2.10 m - 2.40 m - 2.70 m - 3.00 m

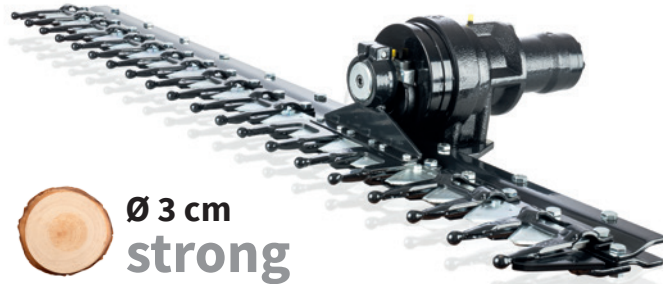

### Powerful cut

Professional tree care, municipal use  
Working width up to 2.40 m

- Branches up to Ø 6 cm
- Very high stability due to reinforced design
- Wedge-shaped AxeCut section for a powerful, clean cut
- AxeCut guard toothed at the top prevents the cut branches from slipping out
- Up to 5 km/h fast
- High, loss-free power transmission thanks to planetary drive in combination with hydraulic motor
- For heavy carrier vehicles
- ProDrive positioned centrally or laterally
- Working widths: 1.70 m - 2.00 m - 2.40 m
